AROGYA WORLD

Arogya World is a U.S. based non-profit organization (501(c)(3)), that has been working for the last decade to create a world without disease. We focus on preventing noncommunicable diseases (NCD) through health education and lifestyle change in India which has an alarmingly high burden. Since 2010, Arogya World has educated more than 6 million people and aims to reach ten times that number in its next decade.
